REVELANT EXPERIENCES

During my academic journey in Computer Sciences, I had the opportunity to participate in a significant project involving the development of a web application using the Django framework. This project entailed creating a robust and functional application that provided an interactive user experience. My responsibilities included designing the database structure, implementing both front-end and back-end features, and ensuring the application's scalability and security.

In addition to this specific project, my academic journey also provided numerous opportunities to collaborate on various group projects, where I honed my teamwork and problem-solving skills.

EDUCATION

Bachelor's Degree in Computer Sciences - FCT| University of Algarve, Gambelas Campus
2020-2023
   Final GPA 14,47

High School - Social and Economic Sciences Course | Dr. Laura Ayres School, Quarteira
2017-2020
   Final GPA 13,57

SKILLS

- Programming Languages:
    o Java, C , Python(Django), HTML/CSS - Proficient
    o JavaScript(Vue), PHP, SQL – Intermediate Level

- Languages:
    o Portuguese (Native)
    o English (Intermediate Level)
    o French (Basic Level)
